Product Use

The Half mask SPERIAN MXPF is designed to work when external concentration allows it .The type of protection depends on the cartridges connected, gases , particles or combined.

The threshold is depending on a theoretical calculation , based on the facial leakage and the efficiency of the adapted canister . The APF is evaluated from 12 to 50 . It allow the use of the Half mask from an external concentration between 12 time to 50 time the Occupational Exposure Limit .

The half mask SPERIAN MX PF can be used only with certified T SERIES cartridges (following the standard EN 141 , EN 143)

The oxygen concentration has to be superior to 17 %

MX/PF 950 half face mask is known worldwide for his exceptional comfort and is specially recommended for long term use.

Features & Benefits

Feature

Easy assembly

Benefit

Easy and quick care

Feature

Silicone facepiece

Benefit

- Comfortable - Long service life - Economical - Easy decontamination

Feature

Triple flange seal

Benefit

Protection factor (Fit Test)

Feature

Wide, horizontal skin contact with pleated design

Benefit

- Good fit across a wide variety of facial geometries - Safe for communication

Feature

Four-point yoke

Benefit

- Safe - Comfortable for long period

Feature

Wide flange seal

Benefit

Comfortable

Feature

Mouth-level exhalation valve position

Benefit

- Comfortable - Communication +++

Feature

Effective and attractive packaging: Product delivered in a clear and effective packaging designed for a self-service environment, which provides the needed information to easily make the right protection choice.
