

DexPure® 803-81

Reliability That Comes in Handy.

For workers in the food industry and precision electronic assembly, the new DexPure® 803-81 provides excellent hand protection against non-harmful substances. The single use nitrile gloves are durable and powder-free and provide basic chemical resistance against contamination. They also fit well on any hand, enhancing your dexterity and ensuring full compliance with food processing regulations.

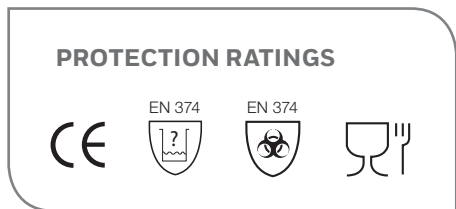

FEATURES & BENEFITS

- 0.07 mm thick, ensuring dexterity for precision work.
- EN374 compliance, guaranteeing better chemical resistance.
- Superior durability.
- Roughened fingertips for better grip.
- Food contact certificate.
- Free from natural latex.
- Different sizes (XS to XL) for total comfort.
- Packed in dispenser box: newly designed, easy to use.

TARGET MARKET/APPLICATIONS:

- Food industry: Poultry (chicken processing), Fruit and vegetable processing, Dairy processing, Food distribution, Catering
- Electronic: Precision electronic assembly
